EVERCONVERT CASE STUDY

BACKGROUND

Dr. Adam Foleck, the founder and owner of The Foleck Center, had spent decades building a successful dental practice in the greater Norfolk area. However, Dr. Foleck sought to expand his practice to include more advanced services, such as dental implants, veneers, and sedation dentistry.

THE CHALLENGE

Dr. Foleck faced the challenge of reaching new patients interested in specialized services such as dental implants. While these advanced procedures offered significant revenue potential, they required a different approach that previous agencies they had worked with failed to deliver.

SUCCESS in Dental Implants

Dr. Foleck turned to Everconvert to develop a growth strategy. Not reports and clicks, but qualified clients and processes to get them in the door. The Foleck Center is already seeing a twelve-fold increase in leads and preparing to open their fifth location.
